GET **1** 90° NC2057 INSERT

Can drill with minimum quantity lubrication (MQL).

- High rigidity
- High performance cutting
- Ultra-long tool life

Internal Coolant

- Optimized coolant design for better balancing.

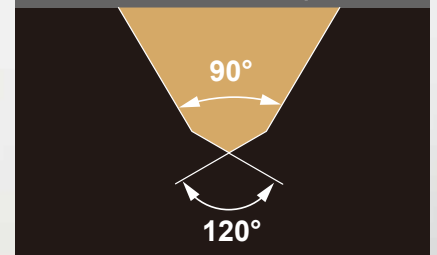

2-Flutes Edged

- It is symmetric.

Dual Point Angle

- The double point angles ensure strength at the centre to prevent fracturing.

► Dual Clamping Screwed Design

- Ensures the vibration free during the cutting

ACE Spot Drill

► Successful Case

Material : Nitriding steel | Construction Equipment manufacturer

Monthly Reduction :

- Tool changes : 2.8 hrs
- Cycle time : 12.5 hrs
